SUMMARY

Software Developer with over 4 years of experience, adept in front-end, full-stack development, SharePoint development specializing in Java, React, Angular, UI/UX, DotNet framework and TypeScript. Demonstrated success in enhancing application performance and user experience, evidenced by a 20% optimization in network layers and a 30% reduction in app load times for major financial clients. Committed to leveraging a detail-oriented approach to align technological solutions with strategic business objectives, consistently achieving productivity gains and enhanced client satisfaction.

SKILLS

- HTML5
- CSS3
- Java Script
- React
- Angular
- DotNET
- Git
- Node JS
- Typescript
- Bootstrap
- JQuery
- Python
- Java
- UI/UX
- Sharepoint

EXPERIENCE

Senior Project Engineer, WIPRO | Nokia, April 2017-December 2018

India

- Developed next-gen multi-layer network planning web app, optimizing network layers by 20%
- Led team in environment setup, GitHub management, and Continuous Integration, boosting productivity
- Development using UI/UX.
- Utilized Spring Boot for server and Angular 2 for client, ensuring robust application functionality
- Enhanced web app performance through advanced network layer optimization, driving measurable results
- Established effective GitHub workflows and CI practices, significantly improving team efficiency
- Enhanced team output by implementing effective CI practices and GitHub workflows.
- Practiced SDLC process, performing unit testing, and packing to deploy from DEV to PROD.

Project Engineer, WIPRO | CITI Bank - Singapore | India, June 2016-March 2017

- Developed a banking app enhancing investment strategies and wealth management,

boosting client returns

- Designed and implemented modules from scratch, improving operational efficiency and user experience
- Created middleware with Spring and front-end using Backbone JavaScript, jQuery, and Less CSS, enhancing user interaction
- Analyzed client needs to design bespoke wealth management solutions, significantly increasing satisfaction
- Optimized database interactions, reducing app load times by 30%.
- Used SharePoint Frameworks to display page layouts, themes, and display templates for team communication site

Project Engineer, WIPRO | CITI Bank – BANAMEX - Mexico | India, December 2015-May 2016

- Developed secure payment gateway, enhancing online transaction safety and authorization
- Implemented JAVA controller, JSP, XML parser, and DAO helper classes for seamless integration.
- Utilized Spring framework for client-side development, ensuring robust application performance
- Integrated advanced XML parsers, boosting data processing efficiency
- Refined backend systems using Spring, ensuring robust and scalable application performance.
- Strong knowledge of the .Net framework and Azure Active Directory

EDUCATION AND TRAINING

Bachelor of Technology in Electronics and Communications Engineering
SRM University, India May 2015
